- **AI-Expertise:** Cursor AI, Lovable, Codex, Napkin AI, Chatgpt, Gemini AI, Grok AI

WORK EXPERIENCE

Mobile Application Developer | Petro Infotech

Nov 2023- Present

- Handling end-to-end Flutter development from requirements to deployment
- Working as a Flutter developer with backend integration using .NET APIs and MSSQL
- Integrating REST APIs, Firebase services, and managing authentication & data flow
- Reviewing code, fixing bugs, optimizing performance, and supporting releases
- Designing clean, responsive UI with reusable and modular Flutter widgets

Flutter Developer Trainee | Magis Clouds Technologies

Mar 2023- Sept 2023

- Developed Flutter application features using GetX for state management and navigation
- Built reusable UI components and integrated APIs

Flutter Developer Intern | Soften Technologies

Sept 2022- Feb 2023

- Worked on Flutter UI development, basic logic, and bug fixing
- Gained hands-on experience with the mobile app development lifecycle

PROJECTS

PetroHSE Mobile Application

PetroHSE is a mobile app that digitalizes Environmental, Health, and Safety (EHS) workflows, including inspections, audits, observations, and safety reporting. It improves worker safety and operational efficiency through real-time data access and streamlined processes.

Clients: EMDAD LLC, SOSCO, Petrogas E&P Oman, Petrogas E&P Netherlands

MobiCore

MobiCore is a mobile solution for managing core and sample data with smart tracking, scanning, and real-time remote access. It enhances data accuracy and insights through charts, graphs, and push notifications.

Clients: Petroleum Development Oman, Shuram Oil & Gas, Premier Corex

Digihr Mobile Application

A hybrid attendance management app with face/fingerprint recognition, geolocation-based validation, QR attendance, and admin batch marking support

Clients: CPA Oman, SBGO, NBGO, Shuram Transport, and the Tax Authority Oman.

Petro ePermit Mobile Application:

Developed a mobile PTW app enabling real-time permit requests, approvals, and site validations with QR/barcode tracking, improving workflow speed and reducing manual errors.

Clients: EMDAD LLC, Petrogas E&P Oman

iCDMS Mobile Application

Developed a mobile app for managing corporate well and subsurface data, supporting well delivery and portfolio management with secure and efficient data access.

Client: Petrogas E&P Oman

Diglogist

Developed a delivery and workforce management mobile app with face and fingerprint authentication, geolocation tracking, offline attendance, QR-based check-ins, leave management, and bilingual (English & Arabic) support.

Client: Shuram Transport UAE

Smart Asset Management System (SAMS)

Developed an asset lifecycle management system to track movement, ownership, hierarchy, depreciation, and warranty details across multiple asset categories.

Client: Tax Authority, Oman

E-Learning Application

Built a mobile learning platform supporting multimedia content (text, images, videos, text-to-speech) for flexible and accessible professional training.

Client: EMDAD LLC

EDUCATION

Flutter Development Training – Soften Technologies

Diploma in Manufacturing Technology – STED Council, New Delhi (2020)
